IEEE Events @ BMSIT&M

IEEE Day was celebrated first time in history when engineers worldwide and IEEE members gathered to share their technical ideas in 1884. Worldwide celebrations demonstrate the ways thousands of IEEE members in local communities join together to collaborate on ideas that leverage technology for a better tomorrow.

On 12.10.2021, the members of IEEE Student Branch BMSIT&M celebrated IEEE Day at the college campus along with students and faculty members. The event started off with Dr Anjan Krishnamurthy and Dr. Sunanda Dixit addressing the gathering and giving a brief about the achievements of the Student Branch and motivating the members to work towards achieving greater heights. Later few of the SB members hosted a Fun and Games session which made the gathering even more enthusiastic. We then had a cake cutting to commemorate the event. Overall it was a wonderful celebration to cherish.

Proctoring System and Counselling Report

Under each proctor (assigned faculty) a maximum of 25 students are allocated. Proctoring of each Dept. is monitored by a team of deputy chief proctors and a chief proctor at the institution level.

Students who face various adjustments problems which include behavioral / Psychological issues can avail the help from a professional counsellor, Mrs. Chethana Srinivas who visits the campus on Tuesdays and Fridays from 1 pm – 4 pm. Since the students have started attending physical classes, Counselling is happening offline in the counsellor's office. Few Staff members had consulted the counsellor for interpersonal disturbances, mindfulness technique was demonstrated that lead to improvement.

Topics like Time Management, Emotional disturbance, Study skills, Procrastination issues were discussed with different students based on their needs. First aid techniques and Cognitive behaviour techniques were shared to console and convince them. Six students and two staff were counselled in the month of October.

NCC Activities at College

‘SAY NO TO PLASTIC’ AWARENESS RALLY

On 8th Oct 2021, NCC organized an awareness rally in and around Avalahalli, Yelahanka spreading awareness on the hazards of using single-use plastic and pledging with local vendors to stop the use of plastics.

“The future depends on some graduate student who is deeply suspicious of everything I have said.”

— Geoffrey Hinton

Geoffrey Hinton, now called the “Godfather” of AI, was originally trained as a cognitive psychologist. That’s why he kept trying to make artificial neural networks (ANN) work when almost no one else was. At the time, experts thought connectionist AI was a dead-end path, even if the brain was made of biological neural networks. But Hinton always thought that “to get artificial intelligence to work [we have] to do the computation in a way similar to the human brain.”

Jnanavardhana

'Teachers to be taught and trained'—is a relatively growing concept found in Societies all over the world, in the nineteenth and twentieth century. Also, Quality education is considered as the backbone of the nation for countries whether they are underdeveloped, developed or developing countries at present. As part of sharing higher level knowledge BMSIT&M gives opportunities to Professors of various Dept.s to deliver talks on recent trends and topics in their domain. This initiative has taken firm footage as Jnanavardhana, a series of talks given by professors to share their knowledge in topics on cutting edge technology and trending subjects. The list of topics delivered by the professors during October-2021 are given in the table
