1	Alekha Technologies	Autonomous Vehicles, COVID19 Solutions

2. Alekha Technologies & HK Groups:

I hope and pray that all is good with everyone during this difficult time as the global COVID-19 pandemic is still peaking around all the countries.

We started working during the first lockdown period in month of April 2020 a solution that can be provided towards the fight towards the COVID19. This was developed as COVID19 is a pandemic that is infected through surface transmission and came out with a product that can be used as contactless sanitizer dispenser – SHUDH.

Variants of Automatic Sanitizer Dispenser :

Demonstration of Automatic Sanitizer Dispenser
