

India Bangalore Nano 2020 in Bangalore on 2nd to 4th March, 2020

India Bangalore Nano 2020 is for students aimed at solving social causes; cash prize, mentorship and funding opportunities for top two ideas. The conference, which was attended by 750 delegates, had 40 speakers deliberated across 15 sessions witnessed thought provoking talks by eminent scientists and professors on various aspects of nanotechnology and nano sciences including agriculture, medicine, manufacturing, pollution and food processing. Altogether 60 students from BMSIT&M attended the conference along with Dr. Ramakrishnappa T and Dr. Sureshkumar K.

IISc visit for “National Science Day” celebration

The National Science Day was organized to showcase research in the Institute and to communicate important concepts in science and engineering to the general public. The Open Days formed part of the Annual Week: besides the general public, industrialists were also specifically invited to visit the Institute on these days. Around 400 students from BMSIT&M joined the National Science Day event along with Dr. Ramakrishnappa T, Dr. Bincy Rose Vergis and Dr. Sureshkumar K.
