NEWSLETTER, JANUARY - JUNE 2021

Department of

COMPUTER SCIENCE & ENGINEERING

Accredited by National Board of Accreditation

Vision

To develop technical professionals acquainted with recent trends and technologies of computer science to serve as a valuable resource for the nation/society.

Mission

Facilitating and exposing the students to various learning opportunities through dedicated academic teaching, guidance, and monitoring.

Program Educational Objectives

1. Lead a successful career by designing, analyzing, and solving various problems in the field of Computer Science & Engineering.
2. Pursue higher studies for enduring edification.
3. Exhibit professional and team-building attitude along with effective communication
4. Identify and provide solutions for sustainable environmental development.

Program Outcomes

1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis, and interpretation of data, and synthesis of the information to provide valid conclusions.
5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. The engineer and society: Apply to reason informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues, and the consequent responsibilities relevant to the professional engineering practice.
7. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of,

and need for sustainable development.

8. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. Individual and teamwork: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Program Specific Outcomes

1. Analyze the problem and identify computing requirements appropriate to its solution.
2. Apply design and development principles in the construction of software systems of varying complexity.

M. Tech. in Computer Science and Engineering

Program Educational Objectives (PEOs)

1. Apply analytical thinking to solve problems through research in the areas of Computer Science engineering.
2. Adapt to changing technological trends through life-long learning by exhibiting professional ethics, integrity, and career growth.
3. Develop skills to facilitate in providing sustainable solutions by addressing the ever-growing challenges of society.

Program Outcomes (POs)

1. Independently carry out research and development work to solve practical problems related to Computer Science and Engineering domain.
2. Write and present a substantial technical report/document.
3. Demonstrate a degree of mastery over the area as per the specialization of the program. The mastery should be at a level higher than the requirements in the appropriate bachelor program.
4. Analyze the acquired domain knowledge for providing a feasible solution(s)
5. Relate the learning outcomes to build requisite competency in a professional environment.
6. Appraise the need for engaging in life long learning.

HOD's Desk

Dr. Bhuvaneshwari C M

B.E, M.Tech., PhD

I am extremely happy to share with you the progress, Department of Computer Science & Engineering has made during 2020 - 2021. The Department has been one of the most vibrant among all, in terms of students, faculty, facility, placements, internships, and incubation centers. The department is recognized as a Research Centre by VTU and 18 scholars who have enrolled for Ph.D. The department is supported by 34 qualified and experienced faculty members with Sixteen Doctoral degree holders in different domains. The department has a team of highly-skilled, motivated, proficient faculty, and technical staff members who are striving hard continuously to enhance the quality of education.

The department has highly competent students who are undergoing internship in reputed companies getting stipends up to Eighty thousand rupees per month. The Department has adopted the practice of Outcome-Based Education (OBE). The Under Graduate Programme is accredited by National Board of Accreditation (NBA), New Delhi, and Permanently Affiliated to Visvesvaraya Technological University (VTU), Belagavi.

The department has set up student chapters like the IEEE student club and CSI on the campus to bridge the gap between industry and academia with a vision, "**IT for Masses**", thus enabling IT professionals and computer users to work towards making the profession an area of choice. With this, I am very confident that, the department is poised to take on challenges to meet the industrial and societal needs in years to come...

(57) Abstract :		
The invention focuses on automating the ticketing system in India using the facial recognition system, making it smarter and easier to use which in turn will increase the frequency of the public transport users. Extensive research is being done in the field of facial recognition and advanced systems that will speed up the process and increase its efficiency. The system is beneficial from the security point of view as well. Also, all the transactions and entries will be verified. Having a unified ticketing platform for all modes of public transport will reduce the hassle involved in it. Overall, this system will make the ticketing system faster and more efficient hence providing the user with a variety of services like reduced waiting time, increased hygiene, more security, faster travel and an all in one platform for all their ticketing needs.

Session Chair

1. Dr. HemaMalini B H, Associate Professor and Head, Dept of CSE was a session chair for Track 3 at “7th International Conference on Advanced Computing and Communication Systems- (ICACCS-2021)” held online hosted by Sri Eshwar College of Engineering Campus, Coimbatore, Tamil nadu, INDIA during 19.03.2021 and 20.03.2021.
2. Dr. Thippeswamy G, Professor , Dept. of CSE was Nominated by Visvesvaraya Technological University (VTU) Belagavi for the Selection Committee Panel for Faculty Selection at Don Bosco Institute of Technology, Bangalore during 08.03.2021 to 13 03. 2021.
3. Dr. Thippeswamy G, Professor , Dept. of CSE was Observer of Peer Team Visits of National Assessment and Accreditation Council (NAAC) to Thrissur – 680566, Kerala during 12.03.2021 to 14 03. 2021
4. Dr. Thippeswamy G, Professor , Dept. of CSE was Adjudicated the PhD thesis of SRM University(Department of Computer Science & Engineering) during March 2021
5. Dr.Usha B A, Associate Professor is appointed as Deputy Chief Controller(External) by Visvesvaraya Technological University (VTU) for the conduction of VTU Theory examination March 2021.
6. Dr.Usha B A, Associate Professor, Dept of CSE was session chair for the **3rd International Conference on Advances in Computing & Information Technology (IACIT- 2021)** on 17.05.2021 & 18.05.2021 organized by REVA University, Bengaluru.
7. Dr.Anil G.N, Professor, Dept of CSE was session chair for the **3rd International Virtual Conference on “Advances in Computing & Information Technology (IACIT- 2021)”** on 17.05.2021 & 18.05.2021 organized by School of CSE and School Computing & Information Technology , REVA University, Bengaluru.
8. Dr.Arun kumar B.R, Professor, CSE chaired a session in Two Day **“International Conference on Emerging Trends in Computer Science & Technology (ICETCST-2021)”**, organized by the College of Computer Science and Information Science, Srinivas University, Pandeshwar, Mangaluru, Karnataka, India held on 18.06.2021 & 19.06.2021.

BOE

Dr.Arun kumar B.R , Professor, CSE, Chairman, **BoS, VTU MCA programme attended joint BoS meeting** in VTU, Belgavi on 05.02.2021.

Dr.Arun kumar B.R. Professor, Chairman, BOS, VTU MCA programme attended the joint BOS meeting chaired by the Vice chancellor. held on 31.05.2021

RESEARCH WORK

Research Proposals Submitted

Dr. Usha B A, Associate Professor, CSE submitted the Research Proposal to “VGST” on 24.02.2021 for the **FDP on Hands on Approach on Artificial Intelligence in Cyber Security**.

Dr. Arunakumari B. N, Prof. Vidya R. Pai, Assistant Professor, Dept. CSE submitted a Research Proposal to VGST GoK, on 24.02.2021 for the **FDP scheme on “Universal Human Values in Technical Education”**.

Dr. Arunakumari B. N, Dr. Lakshmi B. N., Assistant Professor, Dept. CSE submitted a Research Proposal to VGST GoK, on 24.02.2021 for the **RGS/F scheme on “Conglomerate Prediction Model for Diabetes Mellitus”**.

International Conference

1. Dr.Usha B A, Associate Professor, CSE presented and Published the Paper in **IEEE sponsored 3rd International Conference on Intelligent Communication Technologies and Virtual Mobile Networks (ICICV 2021)** at **Francis Xavier Engineering College, Tirunelveli, India** during **04.02.2021 to 06.02.2021(Scopus Indexed)**
2. Dr. Arunakumari B. N., Assistant Professor, Dept. of CSE, **“Novel Approach for Steganography to Camouflage Digital Information using Least Significant Bit”** has been accepted for 3rd International Conference on Computational Intelligence in Pattern Recognition (CIPR) held during 24.02.2021 – 25.02 2021, publication in Springer Advances in Intelligent Systems and Computing (AISC) Series, indexed by: DBLP.
3. Dr.Usha B A, Associate Professor, Dept of CSE has presented and published the paper on **“AUTOMATED SIGN LANGUAGE INTERPRETER USING DATA GLOVES”** at IEEE sponsored **International Conference on Artificial Intelligence and Smart Systems** organized by **JCT College of Engineering and Technology, Coimbatore, India** during 25.03.2021 to 27.03. 2021.
4. Prof. Srivani P, **“A comparative study on the effectiveness of growth rates in DWC and NFT Hydroponic system using Ensemble Classifier Model”** , presented my research work in Fifth International Conference on Information and Communication Technology for Intelligent Systems, Springer Conference, 23.04.2021.
