Placement of the ECE Department

Highest CTC	46 Lakhs
Average CTC	8 Lakhs

The Department of Electronics and Communication Engineering (ECE) at BMS Institute of Technology & Management has a strong and structured placement ecosystem aimed at preparing students for careers in **core engineering, IT, product development, analytics, and higher studies**. The department works closely with the **Training & Placement Cell** to ensure students receive continuous academic, technical, and professional support throughout their program.

ECE students are trained through a combination of **curriculum-aligned technical knowledge, industry-focused skill development, and placement readiness programs**. Emphasis is placed on both **core ECE roles** and **interdisciplinary opportunities**, enabling students to adapt to the evolving demands of the industry.

Placement Training and Preparation

The department actively supports placement readiness through:

- **Technical training** in core subjects such as communication systems, signal processing, VLSI, and embedded systems
- **Aptitude and reasoning sessions** conducted by professional trainers
- **Soft skills and personality development programs** focusing on communication, teamwork, and interview performance
- **Mock interviews and mock placement drives**, many of which are organized during departmental events such as ELECSIM

Faculty mentors guide students in project selection, internships, and skill development to align with placement requirements.

Industry Engagement for Placements

ECE students benefit from **industry interaction programs**, expert talks, workshops, and internships that bridge the gap between academia and industry. Industry exposure enables students to understand real-world expectations and enhances their employability. Students are encouraged to participate in **certification programs, hackathons, and IEEE activities**, which significantly strengthen placement profiles.
