About the Institution

In view of the growing demand for technical education and with the goal of establishing a premier technical education on par with international standards, a technical institution by name 'BMS Institute of Technology and Management' was established in 2002. Currently, BMSIT&M offers nine UG, four PG programs and ten programs have been recognized as research canters under VTU. All our eligible programmes are NBA accredited and NAAC accredited with 'A' grade. BMSIT&M considers innovation and entrepreneurship to be of equal importance as academics for the betterment of the institution. This culture has been embraced well by the students at BMSIT&M. In this report, we present a brief review about the entrepreneurs of Information Science and Engineering, BMSIT&M.

Vision

To emerge as one of the nation's finest technical institutions of higher learning to develop engineering professionals who are technically competent, ethical and environment friendly for betterment of the society.

Mission

Accomplish stimulating learning environment through high quality academic instruction, innovation, and industry institute interface.

About the Department

The Department of Information Science and Engineering started in the Year 2010 with an approved intake of 60 and enhanced to 120 from the academic year 2018-19, 180 from the academic year 2019-20 and 240 in the year 2023-24. The Department has qualified and dedicated faculty members who practice Outcome Based Education (OBE) in the academic deliverables. The faculties have published research articles in various National, International, IEEE Conferences, and Journals which are indexed in SCOPUS, Web of Science, and other prestigious indexing research databases.

The department has modern laboratories to serve the teaching and research needs of the students as well as faculty members. The department has been proactively organizing conferences, workshops, expert lectures, and student-centric activities to encourage students and faculty to instil lifelong learning. Some of our students are working on consultancy projects along with faculty members. The staff are encouraged to attend the 10 days internship to bridge the gap between the academics and industry. The department has an admirable research ambiance.

The Department has adopted learner centric approach to groom the students in the right direction. It has more than 200+ research articles published in various national/international conferences and Journals. Our Students have consistently demonstrated the excellent placement track record of above 90 percent. They have demonstrated a high level of success at pursuing post graduate studies at top universities of the world as per QS World University Rankings. Some of our Students have turned into successful entrepreneurs and running their successful business in the areas of software services and allied areas.

Department Vision

Emerge as center of learning in the field of Information Science & Engineering with technical competency to serve the society.

Department Mission

To provide excellent learning environment through balanced curriculum, best teaching methods, innovation, mentoring and industry institute interaction.

From the HOD's Desk

It is my pleasure to present the first edition of ISE Entrepreneurs Compendium of the Department of Information Science & Engineering. The main objective of this compendium is to bring-in the information about our student entrepreneurs. It is evident that the department is in-line with the on-going activities to cater to the global need of start-ups. I hope this compendium continues its service to help the student community & faculty fraternity and attract more readers and provide an illuminating platform for the budding student entrepreneurs. I appreciate the efforts endorsed by all the faculty members and students of the department for their contribution towards this Compendium. I wish all the student and faculty members for their active participation and to keep continuing.

Dr. Manjunath T N

From the Editor

It's my pleaseure to be part of Editorial team for this Entrepreneurship Compendium 2023-24, published by the Department of Information Science & Engineering. The main objective of this compendium is to motivate all the stakeholders and the student community to get themselves actively involved in the process of Innovation and Entrepreneurship. It comprises of the details of some of the entrepreneurs that the department has proudly produced. I thank all the faculty members for their contribution towards the Entrepreneurship compendium 2023-24.

PROGRAMME EDUCATIONAL OBJECTIVES

PEO-1: Successful professional career in Information Science & Technology.

PEO-2: Pursue higher studies and research for advancement of knowledge in IT industry.

PEO-3: Exhibit professionalism and teamwork with social concern.

PROGRAMME OUTCOMES

1. **Engineering knowledge**: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis**: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions**: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems**: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage**: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society**: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability**: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

8. **Ethics**: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and teamwork**: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication**: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance**: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life-long learning**: Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

PROGRAM SPECIFIC OUTCOMES

PSO-1: Apply the knowledge of information technology to develop software solutions.

PSO-2: Design and Develop hardware systems, manage, and monitor resources in the product life cycle.
