Joy of Giving Club	To promote social responsibility and community service.	Gift of Giving initiatives, OCHIBA Art, Paint a School, Green Army activities
HEADSPACE Club	To improve communication skills and industry readiness.	Podcast series, technical debates, public speaking events

Anvaya Club

ANVAYA Club is a premier technical club dedicated to fostering innovation and professional excellence. By hosting high-impact initiatives like Technix, Hackathon, and CodeJam, the club bridges the gap between theoretical knowledge and industry practice. Our main objective is to cultivate coding proficiency and collaborative problem-solving, equipping students with the practical experience necessary to thrive in the modern technical landscape.

Participants during Technix 7.0 event conducted on 04.12.2025 & 05.12.2025

Hack Verse 2025 –Two-day hackathon was held on 14.03.2025 and 15.03.2025

Joy Of Giving Club

The Joy of Giving Club is a committed student-led initiative that promotes social responsibility, environmental awareness, and community development. The club is founded on the principle that even small acts of kindness can lead to meaningful and lasting societal impact. By aligning its activities with the United Nations Sustainable Development Goals (SDGs), the club motivates students to extend their learning beyond academics and actively contribute to societal well-being. Under this initiative, students of the MCA department have undertaken several impactful activities such as Gift of Giving Library, Gift of Giving Wings, OCHIBA Art, Green Army for Indian Army, and many other community-oriented programs.

Certificate from Ministry of Home Affairs

MCA Students at Moulana Azad Model School during 'Paint a School' event

Students with the staff and children of Avalahalli Primary School

HEADSPACE CLUB

HEADSPACE – The Podcast and Conversation Club, serves as a strategic platform to cultivate technical excellence and industry readiness through an experiential learning environment. The club focuses on enhancing professional communication and media production skills by hosting a YouTube podcast series that features direct dialogues with industry professionals, researchers, and entrepreneurs. By training students to lead these interviews and engage in structured technical debates and public speaking events, the club actively removes communication inhibitions and builds strong professional networks. This initiative not only provides listeners with first hand industry insights but also creates a valuable digital repository of knowledge, ultimately strengthening the department's industry ties and significantly improving student employability and confidence.
