

## Project Exhibition

Mechanical engineering department had organized exhibition of the project works carried out by students on 16/05/2017 at amphitheatre of the institution. All the 18 projects of the 8<sup>th</sup> semester Mechanical Engineering Department and mini projects were on display. The project works covered wide areas which is useful for the society and environment. Projects included in the areas such as solar energy, agricultural devices, design and analysis of components, seed decortications, power generation methods using wind energy and muscle power of human beings.

The projects were judged by Mr.Sridhar, General Manager, R&D, Federal Mogul, Bengaluru plant. Mr.G.L . Anantha Krishna, project coordinator of the Mechanical Engineering Department welcomed Mr.Sridhar with a bouquet. Dr.H.K. Govinadaraju, HOD, Mechanical Engineering Department accompanied Mr.Sridhar throughout his presence during the open day. Dr.H.K. Govindaraju gave suggestions to further improve the quality of projects. Our beloved Principal, Dr. Mohan Babu G.N visited and interacted warmly with the students and inspired and motivated the students. Students were elated during the interaction.
