

Industrial Visit:

Fifth semester students were taken to Gauribidanur Observatory on 3rd November 2017 as part of Industry/Institute interaction. Dr. R. Ramesh, the First Appellate Authority in Indian Institute of Astrophysics gave a lecture on “Radio Astronomy Techniques and Tools”, covering the minute aspects of radio astronomy and the challenges in it. Scientist Mr. Indrajit explained many practical aspects of signal processing, solar imaging techniques and Mr Girish explained the working of antenna arrays, design aspects and the problems involved in it to the students. Thus the students were motivated by the visit. The students were accompanied by the Dr. C. S. Mala, HOD and Mrs. Surekha. R. Gondkar, Associate Professor.

Experts explaining the concepts to the students

5th semester students along with Dr. C S Mala and Mrs. Surekha R Gondkar at Gauribidanur Observatory on 3rd November 2017
