

BMS Institute of Technology and Management Department of Electronics and Communication Engineering

ELECSIM

SCINTILLA is an inter-department & inter-collegiate fest that brings together Bangalore's budding engineers and enthusiasts to share ideas that matter in any discipline.

We are extremely happy and grateful to the management for helping us conduct SCINTILLA 2018 successfully. Hosting this event has proved to be a dynamic and educational experience unlike any other and we're confident that the fest was enjoyed by all. We would also like to thank Mrs.Rashmi.N for her immense support and guidance.

A wide variety of events were conducted such as Sherlock, Gully cricket, Battle of warriors, PubG, mock placements, Event X, Pirates of the Caribbean etc. . The fest was a grand success and got over 1000 participants from a wide range of colleges.

The chief guest to inaugurate SCINTILLA 2018 was Mr.S.Hiriyanna, Group Head GEOSAT Programme Management and Systems Group, ISRO. The inauguration was held in the main seminar hall amidst teachers, students, participants, HODs, Principal and the Chief Guest.

Amazing decorations were put up by our art and craft department keeping in mind a theme of wizards. The events were then followed by a prize distribution ceremony.
