

BMS

Institute of Technology & Management, Bengaluru-64

Department of MCA

The open course will help the students for their projects in their higher semester. The tools which we are demonstrating are MATLAB and SCILAB. The features of MATLAB and SCILAB will be demonstrated by taking problems in different fields including digital image processing and networks. The students can develop the project based on the demonstration to represent the real-world problems. This open short term course will enable the learners to achieve the following course outcomes.

Resource Persons:

Mrs. Drakshaveni G

Assistant Professor, Dept. of MCA, BMSIT&M

Mrs. Reshma C R

Assistant Professor, Dept. of MCA, BMSIT&M
