

Technical Lecture Series / Career Guidance Programmes / Higher Education Awareness Programmes

The BMSIT&M Alumni Association conducts series of Technical lectures by the Alumni. This program has been the main activity of the Association, with Alumni being invited to share their thoughts, knowledge and experiences. The idea is to get the students a more practical approach to life after college in universities or industries, and also to create a platform where students can attain a source of knowledge that can help their careers. The following is the list of various Technical Lectures conducted.
